

## **2<sup>nd</sup> Grade Ag Tours**

Pumpkin spice, corn mazes, and apple picking are what many people think about when fall rolls around. On October first, the Denmark FFA took 97 second grade students to Apple Valley Orchard for the annual Ag Tours. This was the first year that the Ag tours happened somewhere besides a local dairy farm. The second graders learned all about what products apples can be made into. Along with learning all about apples, the second graders picked some apples to take home and were also able to enjoy a petting zoo.
